Education & Resources

Our office serves as a year-round resource centre to students, the public, building owners, governmental agencies, and tourists with information about Winnipeg's history and built heritage issues.

Through our educational program we speak to students of all ages about various aspects of Winnipeg's built heritage. Presentations are available to interested groups.

In partnership with other organizations, Heritage Winnipeg supports research, projects, and publications about Winnipeg's history.

The Heritage Winnipeg Blog was created in 2014 to reach a broader audience with information about heritage buildings, tours, events, and issues in the city of Winnipeg. In concert with our social media, the blog has grown to have a significant readership.
